### TRADE AND ENVIRONMENT REVIEW, 2006

Book information UN Symbol: UNCTAD/DITC/TED/2005/12 Sales no.: E.05.II.D.27 Date of publication: 07/02/06 ISBN: 92-1-112608-6 ISSN: 1810-5432

The TER 2006 focuses on environmental and related health requirements and their impact on developing countries' market access. It examines both the opportunities and challenges presented by these requirements, which are increasingly stringent, complex and multi-dimensional. The Review includes both general and sectoral analyses of the issue, and looks at two sectors where environmental requirements are critical to market access: electrical and electronic equipment and organic agricultural products.

Table of contents Chapter 1

Environmental requirements and market access for developing countries: promoting environmental - not trade - protection

#### Chapter 2

Environmental requirements and market access for developing countries: the case of electrical and electronic equipment

#### Chapter 3, Part I

Organic agriculture: a trade and sustainable development opportunity for developing countries

#### Chapter 3, Part II

Organic agriculture: the experiences of Central America, Cuba and the Dominican Republic

#### Chapter 4

Overview of technical cooperation/capacity building activities, 2004-2005
